

International 2.4mR Class Association

**To all National 2.4mR Class Associations
April 11, 2013**

Dear chairmen

Norway 2013-04-11

The One Design issue

The letter of 14th of March informed about the ongoing work on the one design issue, saying that proposals on documents from the TC would be the next step. TC delivered the proposals for some principles on 25th of March and for the OD Class Rules on the 7th of April.

In two meetings, on the 27th of March and 10th of April, on the proposals from the TC, the EC has completed the decisions to create a one design class based on the Norlin Mk3 design in the ICA. Minutes from the TC and EC meeting are published on the WEB, showing the specific decisions and the votes casted. The EC decisions will be presented to the 2013 AGM for approval.

The name of the class was decided to be "2.4 Norlin One Design Class". The class rules are dated 2013-04-10 and are published on the WEB.

The IFDS has selected the Norlin Mk3 for the 2016 Paralympic Games. 17th of February 2013 the IFDS informed the ICA that they will consider under which rules that may take place, the 2.4mR Class Rules with an appendix or an OD Class Rules. The IFDS is informed that the OD class rules now are ready from the EC and most likely will be approved by the 2013 AGM in September.

The final element that must be in place before the ICA fully manages the OD class is the agreement with the designer. The 2012 AGM authorized the EC to transfer the agreement that the 2.4 One Design Class Association now holds with the Norlin Yacht Design to the ICA as the new party. As the ICA OD class was created yesterday, this issue is now on the schedule.

Regards
